Get a 90-day supply of maintenance medication at the pharmacy for less

Taking maintenance medications for chronic conditions as prescribed can help prevent complications, trips to the ER, and hospital admissions.

Independence Blue Cross makes it easier and more convenient for you to stay healthy. **You can access a 90-day supply of maintenance medications for a reduced cost at CVS**. This means fewer trips to the pharmacy and lower out-of-pocket costs.

How it works

1. Have your doctor write your prescription for a 90-day supply, plus refills.
2. **If your doctor gives you a paper prescription**, take the prescription to your preferred CVS. **If your doctor submits the prescription electronically**, make sure they submit it to your preferred CVS.
3. Pick up your 90-day supply of medication when it's ready. You will pay the same amount as you would for a 90-day supply through mail order.

You can now pay less for drugs to manage chronic conditions such as diabetes, high blood pressure, high cholesterol, and more.
